

SUMMARY

Java & Angular Full-Stack Developer with 4+ years of professional experience building scalable, secure, and maintainable enterprise applications. Strong expertise in Java (Spring Boot) and Angular, with solid full-stack knowledge spanning backend APIs, frontend architectures, databases, and CI/CD pipelines. Experienced in ERP/CRM systems, role-based access control, and data-driven dashboards. Proven ability to work in Agile environments and collaborate with cross-functional teams to deliver high-impact, production-ready solutions.

TECHNICAL SKILLS

- **Languages:** Java, TypeScript, JavaScript, HTML, CSS, Python.
- **Frontend:** Angular, PrimeNG, RxJS, Tailwind CSS, SASS/SCSS, React, Next.js.
- **Backend:** Java Spring Boot, Node.js, Express, RESTful API design, authentication & authorization (JWT, RBAC).
- **Databases & ORM:** MySQL, PostgreSQL, MongoDB, Spring Data JPA, Hibernate.
- **Tools & Methodologies:** Git, CI/CD (Jenkins, GitHub Actions), Postman, Jira, Slack, Agile / Scrum.

PROFESSIONAL EXPERIENCE

09/2024 – Present | ELITE CONSEIL - Full-Stack Developer (Java / Angular)

Company: Partnered with a multi-campus education group serving 30,000+ students and 500+ instructors.

- Designed and evolved a large-scale ERP/CRM platform centralizing student lifecycle management, admissions, scheduling, and instructor allocation.
- Developed robust backend services using Java Spring Boot, implementing clean architecture and scalable REST APIs.
- Built a secure authentication and authorization system, implementing fine-grained role-based access control and strict data isolation.
- Created interactive Angular dashboards to transform complex operational data into actionable insights for administrators and management.
- Collaborated closely with product owners and stakeholders in Agile ceremonies to ensure scalable, maintainable, and business-aligned deliveries.

Angular, TypeScript, PrimeNG, Tailwind CSS, SASS/SCSS, Java Spring Boot, CI/CD

10/2023 - 08/2024 | 111CoThink - Full-Stack Developer

Company: Digital agency managing coworking platforms and e-commerce solutions.

- Developed and deployed a chatbot interface to improve automated customer support and user engagement.
- Built and maintained SEO-optimized, responsive websites that increased client visibility and lead generation.
- Worked across multiple projects simultaneously, handling the full development lifecycle from requirements to deployment.
- Applied CI/CD best practices to streamline deployments and ensure code quality.

Next.js, TypeScript, OpenAI API, MySQL, Tailwind CSS, Git

02/2023 - 06/2023 | Lion-Touch - Full-Stack Developer Intern

Company: Startup developing digital health solutions.

- Developed core modules for a diet and nutrition management web application.
- Implemented backend business logic for caloric calculations, macronutrient distribution, and nutritional tracking.
- Built Angular dashboards presenting health data in a clear and actionable format.
- Created a dedicated interface for nutritionists, enabling appointment scheduling, client monitoring, and progress tracking.
- Applied clean separation between frontend and backend to ensure maintainability and scalability.

Angular, Laravel, PrimeNG, Tailwind CSS

01/2022 – 01/2023 Digital Hub - Backend Developer – Java

- Developed and maintained backend services using Java and Spring Boot for internal and client-facing applications.
- Designed and implemented RESTful APIs, ensuring performance, security, and scalability.
- Worked with relational databases using Spring Data JPA for efficient data persistence and querying.
- Participated in code reviews and collaborated with frontend developers to ensure smooth API integration.
- Contributed to debugging, performance optimization, and technical documentation.

Java, Spring Boot, Spring Data JPA, MySQL, Git

EDUCATION

2020 - 2023 **Higher Institute of Technological Studies of Zaghouan (ISET)** **Zaghouan, Tunisia**
Bachelor's Degree in Computer Systems Development (DSI)

SOFT SKILLS

- **Teamwork**
Effective collaboration in cross-functional team environments.
- **Problem Solving**
Developing creative and efficient solutions to complex technical challenges.
- **Communication**
Clear and concise communication with both technical and non-technical stakeholders.
